About Usernames and Passwords

Your username is the email address associated with your account in TIDE. When you are added to TIDE, you receive an email containing a temporary link to the **Reset Your Password** page. To activate your account, you must set up your password and set a security question within 15 minutes of receiving this email.

If your first temporary link expired or you forgot your password:

On the login page, click **Forgot Your Password?** then enter your email address in the *Email Address* field to reset your password. If your account is already set up, you need to answer your security question as well. You will receive an email with a new link to reset your password.

If you did not receive an email containing a temporary password:

Check your spam folder to make sure your email program did not categorize it as junk mail. If you still do not have an email, contact your Building or District Test Coordinator to make sure you are listed in TIDE.

Additional help:

If you are unable to log in, contact the Wyoming Assessment Help Desk for assistance. You must provide your name and email address. Contact information is available in the [User Support](#) section of this user guide.
